EXPERIENCE

weltenbauer. Software Entwicklung GmbH

Software Developer | Jan 2020 – Present

- Developed robust, scalable and user-friendly **web applications** by applying industry best practices, primarily utilizing **Angular and .NET** technologies.
- Maintained and automated **deployment strategies** of various applications to **Kubernetes Cluster with Azure DevOps**
- Administered **MS SQL** databases through **Entity Framework Core**, overseeing tasks such as database design, optimization, and maintenance
- Deployed and managed **Application Services using Azure** and maintained it with **Azure Application Insights**
- I was involved in creation of the company website using **Grav CMS**
- Created an interactive panorama application with **React and Pannellum**
- Actively participated in the **planning of solutions**, seeking to understand the client's perspective and conveying information effectively between the project team and the client

Elektroniksystem- und Logistik-GmbH

Java Developer | Jun 2019 – Dec 2019

Student Web Developer | May 2017 – May 2019

- As a **Computer Science student** I developed several web-based internal tools for colleagues utilizing **jQuery and PHP**
- Maintained a virtual machine running **CentOS** on company's internal server architecture using **PuTTY**
- Administered **MySQL database**, created and optimized several queries
- Created an automation tool with **Electron, React and Node.js** making redundant tasks of colleagues obsolete
- Using **Java** I was involved in development and testing of a car diagnosis software
- Supported an innovative project with face movement recognition
